PAUL MANTELLO
SOFTWARE DEVELOPER & TECH LEAD

After getting my software development engineer diploma, I did work for 9 years in various major companies in my area. I've started my carrier working with C++ and Java and quickly became a Web development expert. Now I've become a technical lead in Angular at Naval Group, and then In La Boîte Immo.
In march 2023 I've made a shift in my career and started to work as a freelance. I work now as a Senior Developer for a Smart City project, using a lot of advanced technologies.
I also develop sides projects with various technologies , to train myself and discover news stacks (Swift, Rust, AstroJs, Angular, Node.)
